2024 NON-MEMBER TRACK ACCESS POLICY

It is a high priority for RMM to balance the use of the track by its members with the ability for the public to access the facility. It is also important that RMM members have some exclusivity and therefore there must be some limitations to the amount of access non-members have.

In an effort to manage this in a fair and equitable manner, RMM will limit the number of times a non-member can be on track to 3 times per year. However, the following exceptions will apply and will **not count** towards the 3-event limit:

1. RMM DRIVING/RIDING SCHOOLS AND CLINICS

RMM Educational driver/riding programs will not count towards the 3-event limit. Renters providing driver or rider schools will not qualify for this exemption without written confirmation from the Operations Manager.

2. CORPORATE MEMBER

The 3-event limit will not apply if the same invited guest attends a corporate member(s) track session. However, if the same guest is a non-member and attends 3 or more corporate member sessions, that individual will be considered to have used all their non-member access. Guests that attend less than 3 corporate events will have the balance of the 3 non-member track events available to them.

3. SANCTIONED RACES

Put on by racing clubs or organizations; "Racers" can participate in an additional event moving their access limit to 4. The 4 entries are inclusive of all on track activities, regardless of vehicle type, event type and/or event length.

4. RMM/HARDNOX TRACK EVENTS

Non-members will be permitted to participate in 4 RMM/HardNoX track events. The 4 entries are inclusive of all on track activities, regardless of vehicle type, event type and/or event length.

Please be advised only one exception may be used per person per annum. Non-Member Access Policy applies only to on track activities. Spectating and other off track activities are not limited. In the event a participant tries to exceed the limit, they may not be granted access to the property. No refunds will be given and other penalties to limit future access may be applied.
